

## Sporcidin® Disinfectants

### Features and Benefits

- EPA, FDA and OSHA Compliant
- Provides 100% kill of disease and odor-causing organisms. It is fungicidal, bactericidal, virucidal and tuberculocidal.
- Continuous residual bacteriostatic activity for up to 6 months.<sup>1</sup>
- Non-corrosive to surfaces including plastics, latex, vinyl, glass, wood, metal, grout and porcelain.
- Contains a pharmaceutical active ingredient system with no harsh chemicals such as bleach, o-phenylphenol, alcohol, glutaraldehyde, ammonium chlorides, chlorine dioxide nor oxidizing agents.
- Slightly alkaline (pH 7.9) nonionic/anionic formula.
- Non-staining and non-flammable.
- No special shipping nor disposal requirements.
- Registered in all 50 States, including California.

<sup>1</sup> EPA Registration Number 8383-3.

<sup>2</sup> University of Maryland Dept. of Cell Biology and Molecular Genetics.

## Mold Remediation

### Effective Fungicide

Sporcidin® Disinfectant Products are all EPA registered to kill mold including *Stachybotrys chartarum*, *Chaetomium globosum* and *Aspergillus niger*.<sup>1,2</sup>

## Air Duct Cleaning

### Cleans and Deodorizes

EPA registered for cleaning hard, nonporous air ducts. It does not require rinsing after application. Sporcidin products effectively clean and deodorize air ducts, leaving them smelling fresh and hospital clean.<sup>1,2</sup>

## Water/Flood Damage

### Bactericidal and Fungicidal

Sporcidin Disinfectants kill mold, mildew, bacteria and other odor-causing organisms that occur as a result of water and flood damage. It leaves a fresh, hospital clean fragrance.

## Equipment and PPE Decontamination

### Prevents Cross-contamination

To prevent cross-contamination, Sporcidin is effective for cleaning and decontaminating personal protective equipment (PPE), gear, tools, and restoration equipment after removal from containment areas. Sporcidin products are compatible with plastics, latex, vinyl, glass, wood, metal, grout and porcelain.

## Trauma Scene Clean-up

### OSHA Bloodborne Pathogens Standard Compliant

Effectively cleans and decontaminates surfaces and equipment that come into contact with blood and other potentially infectious material (OPIM) containing pathogenic organisms, which cause infection and disease in humans. Sporcidin is FDA cleared for disinfection of medical instruments and equipment and EPA registered for hospital disinfection with six months continuous residual bacteriostatic activity after initial application.

## Carpet Cleaning and Deodorizing

### Cleans, Deodorizes and Removes Contaminants

Sporcidin contains a combination of surfactants which dissolve stubborn dirt, soil and grime for easy removal or extraction.

Sporcidin kills the organisms that cause odors and leaves carpets with a clean and fresh fragrance. Sporcidin is nonionic/anionic and is compatible with today's modern stain release carpet fibers. It will not strip away the protective coating like other products.

## Sewage Backflow

### Effective Against Gram-negative and Gram-positive Bacteria, Mold and Mildew

Sporcidin is a broad-spectrum bactericide that kills disease and odor-causing organisms left from raw sewage and black water contaminations. It leaves a hospital clean fragrance.

**Proven Effective  
Against Disease  
and Odor-causing  
Organisms Including:**

## What Professionals are saying...

*Aspergillus niger*

Avian Flu A (H9N2)

Canine parvovirus

*Chaetomium globosum*

Coronavirus (Infectious  
bronchitis virus - SARS)

Cytomegalovirus

*Escherichia coli* (E. coli)

Herpes simplex  
types 1/F and 2/G

HIV-1 (AID Virus)

Influenza A (H1N1)

Influenza A<sub>2</sub>

Methicillin resistant

*Staphylococcus Aureus*  
(MRSA)

*Mycobacterium  
bovis BCG* (TB)

*Pellicularia filamentosa*

*Penicillium variable*

Polio virus type 1

*Pseudomonas aeruginosa*

*Salmonella enterica*

*Stachybotrys chartarum*

*Staphylococcus aureus*

*Streptococcus pyogenes*

*Streptococcus salivarius*

*Trichophyton  
mentagrophytes*  
(Athlete's foot)

Vaccinia virus

Vancomycin resistant  
*Enterococcus faecium*  
(VRE)

"It is safer for handling and can be used for more applications than any other product... Our 1200+ franchises love the product and have found it extremely useful in both water and mold remediation work."

Hugh Lloyd,  
Professional Cleaning Products Manager  
Servpro Industries, Inc., Gallatin, TN

"Sporicidin Disinfectant Solution was more effective than household bleach in controlling common mold fungi... including *Stachybotrys chartarum*, *Chaetomium globosum* and *Aspergillus niger*..."

George A. Bean, Ph.D.  
Department of Cell Biology  
and Molecular Genetics  
University of MD., College Park, MD

"We use Sporicidin because it eliminates odors quickly in public restrooms and provides 6 months bacteriostatic activity against odor-causing organisms. Our customers like the hospital clean fragrance."

Bruce Mullen, Senior Vice President  
Purchasing and Product Development  
Swisher Hygiene, Charlotte, NC

"Sporicidin is our biocide/deodorizer of choice. We have been requiring its use on thousands of indoor air quality and mold remediation projects for nearly 5 years. This fungicide/bactericide/virucide is EPA registered for air ducts, carpets, surfaces and fogging which makes it an invaluable resource. One product can be used rather than having a remediation firm use a "cocktail of products" to address different needs on the same project. We find its mold killing power combined with its toxicological safety to be unparalleled. Using Sporicidin also complements proper HEPA vacuuming and other source removal techniques."

David K. Young, MPH,  
Vice-President, Industrial Hygienist  
Environmental Diagnostics Corp., Fairfax, VA

### For Use in:

Airplanes, Boats  
& Trains

Ambulances

Autos & Buses

Clinics

Dental Offices

Fitness Facilities

Homes

Hospitals

Hotels

Industrial Cleanrooms

Laboratories

Medical Offices

Physical Therapy  
& Rehab Centers

Prisons

Restaurants

Restrooms

Schools

Veterinary  
Environments

Wellness Centers  
& Spas

## ...More Comments

"We sell chemicals and equipment to cleaning and restoration professionals throughout the mid-south region. Sporicidin has turned out to be one of our best-selling restoration products. Our customers tell us they like using Sporicidin because it is effective and easy to use on many types of restoration situations."

John Hill, President  
NAMCO - The Cleaner's Depot, Nashville, TN

"I have recommended Sporicidin on projects involving gross fungal contamination and found the product to be effective in reducing the overall viable spore concentrations. Contractors seem to appreciate the simplicity of its application, too."

David Watts, CIH, Senior Project Manager  
ATC Associates, Inc., Daphne, AL

Sporicidin is "effective against *Staphylococci*... and *Hemophilus Influenza*."

R. Bonda, DDS and R. Comeau, DDS  
Newark City Hospital, Newark, NJ

"Bacteriologic studies, in vitro and in vivo, demonstrated rapid bactericidal and fungicidal properties."

E.A. Braunlin, Manhattan Eye, Ear and Throat Hospital,  
Journal of the National Medical Association, NY

"Purofirst has been using Sporicidin Solutions and Towelettes for remediation of mold problems. It works great to eliminate odors and stains from water, fire and sewer back-ups. Our employees like to work with it."

Jeff Borowski, Production Manager  
Purofirst of Metropolitan Washington  
Rockville, MD
